Nepalese - Magar

“*Magar*” is a Nepalese Nation characterised by praying the spirits of ancestors and nature.

Since birth we are practicing, to respect and remember our ancestors at home and in family “Bisauni” (all ancestors are added to Bisauni after death).

When we go to “Bisauni”, we offer food, wine, rice, money and dhaja as a way of honouring their ancestors and praying the nature to be generous and give good harvests and prevent floods and water shortages.
